HONGKONG OFFICE: 14, DES VŒUX ROAD CL.  
LONDON OFFICE: 131, FLEET STREET, E.C.

HONGKONG, 23RD MAY, 1904

RUSSIA has not been slow to suffer also at the hands of Nature a similar disaster to that which afflicted Japan on the 15th instant, when a fog caused the loss of the cruiser *Yoshino*. The Russian cruiser *Bogatyr*, in a fog, has now sunk outside Vladivostok. In the case of the *Yoshino*, was one of her fellow cruisers which sank; the *Bogatyr* was lost through striking land. The result has been the same in both cases, that the unfortunate vessel is out of the war, even if not permanently out of existence. The Russians were able to save all the crew, it seems, in this more happy than the Japanese. But, on the other hand, the *Bogatyr* was a far larger, more modern, and better armed vessel than the *Yoshino*, and the loss to Russia is proportionately heavier. At this time, when battles have been overtaking both belligerents' navies in rapid succession, it may be of uninteresting to give a list of the total losses, as far as can be made out from the various accounts. Taking the Russian list first, we have the following:—

*Petropavlovsk*, battleship, blown up off Port Arthur on 13th April;  
*Bogatyr*, protected cruiser, wrecked off Vladivostok last week;  
*Varyag*, protected cruiser, sunk at Chemulpo on 9th February;  
*Koreets*, gunboat, sunk at Chemulpo on 9th February;  
*Sivuch*, gun-vessel, destroyed by Russians at Newchwang;  
*Bestuzhev*, destroyer, sunk at Port Arthur on 13th April;  
*Vneshitela*, destroyer, wrecked off Port Arthur on 24th February;

*Steguschki*, destroyer, sunk off Port Arthur on 10th March;  
*Yenisei*, mine or torpedo-transport, blown up at Dalny on 11th February.

To these may be added perhaps the *Bogarin*, armoured cruiser, reported wrecked at Port Arthur in February, and *Bogarin*, protected cruiser, claimed by the Japanese to have been wrecked at Dalny on 12th February; and the following damages of a serious nature:—

*Pobieda*, battleship, struck by mine off Port Arthur on 13th April;  
*Pollava*, battleship, struck by shell at Port Arthur on 9th February;  
*Retvisan*, battleship, torpedoed at Port Arthur on 8th February;  
*Tsarevitch*, battleship, torpedoed at Port Arthur on 8th February;  
*Ashold*, protected cruiser, struck by shell at Port Arthur on 9th February;  
*Diana*, protected cruiser, struck by shell at Port Arthur on 9th February;

*Pallada*, protected cruiser, torpedoed at Port Arthur on 8th February.

The case of the *Novik*, protected cruiser, is doubtful; she has done a lot of hard fighting and has several times been reported injured.

Turning now to the Japanese fleet, the following losses are certain:—

*Hatsuse*, battleship, blown up off Port Arthur on 15th May;  
*Yoshino*, protected cruiser, sunk in collision off Shantung promontory on 15th May;  
*Miyako*, unarmoured cruiser, blown up off Taiwan on 14th May.

No record of lesser Japanese casualties can be furnished. The Russians have repeatedly claimed to have sunk destroyers and torpedo-boats, but, apart from the blowing up of torpedo-boat No. 48 at Taiwan on the 12th May, the Japanese admit no losses. As the Japanese official news has been so correct we must be inclined to believe their actual losses no more; but with regard to minor injuries it is known that they have docked some vessels from time to time. Whether the *Kanaga* was injured in the collision on the 15th instant remains to be heard.

In total losses, therefore, we may certainly set one Russian battleship, two protected cruisers, two gunboats, three destroyers, and a mining vessel against one Japanese battleship, one protected cruiser, and one unarmoured cruiser. In addition the Russians have four battleships and at least three protected cruisers practically hors de combat against unknown but small Japanese casualties. The discrepancy is not a little startling; or at least it would have been, could we have foreseen it at the beginning of the war.

To-day and to-morrow being public holidays, there will be no issue of the *Daily Press* to-morrow (Victoria Day); should, however, any important war telegrams be received they will be issued to our subscribers in the form of an Extra.

Capt. R. Mitchell has resigned his commission in the Hongkong Volunteer Corps.

The appointment is notified in the *Gazette* of Mr. T. L. Perkins to act on behalf of the Building Authority.

By a proclamation in the *Gazette* the prohibition to export arms, etc., is extended for a further period of 6 months.

A large number of local holiday-makers who have not gone to Macao are going round to Deep Water Bay to-day. The links should be crowded.

8 more fatal Chinese plague cases were reported up to noon on Saturday. One man was found wandering in No. 2 Health District and subsequently died, while one body was dumped.

The latest home papers record that Lisbon a month ago was without newspapers owing to a printers' strike, and Vienna was without a train service owing to a strike of employees on the Hungarian State Railways.

In a cricket match at the Happy Valley on Saturday between the Dallas Company and the "Non-descripts" the former won a meritorious victory. The Dallas Co. were assisted by a certain number of local cricketers, but Mr. Percival Knight managed to distinguish himself both in batting and bowling, making 26 runs and taking 4 wickets.

Mr. John Roberts played a game of billiards recently at the United Club against another of Bangkok's leading billiard players, Mr. Charles Roberts. The conditions were 1,000 up. Mr. C. Roberts receiving 650 start. Mr. John Roberts filled his score of 1,000 against Mr. C. Roberts's 941, winning by 52 points. Mr. John Roberts subsequently played Mr. George Stewart. The latter had 650 points in 1,000 up allowed, and Roberts won by 151. After the conclusion of this game Mr. Roberts played Messrs. J. K. Black and Payne at pool, giving the former 5 and the latter 6, and beating them respectively by 12 to 7 and 13 to 7.

Singapore has declared Amoy, as well as Hongkong, plague-infected.

On Saturday evening Mr. Li Hong Mi, Supreme Court interpreter, was entertained to a banquet in the Yin King Lam restaurant, on the occasion of his departure for England on leave. There were about 40 people present. Mr. Li Hong Mi is taking to England his son to be educated. Good wishes from their many friends follow them both. Mr. Li Hong Mi and his son leave by the *Bogarin* on Wednesday.

The following is the programme of music to be performed by the band of the 1st Sherwood Foresters on the New Parade Ground from 5 to 6.30 p.m. to-day:—

March....."Scraphine".....Clark  
Overture....."The Merry Wives of Windsor".....Nicolai  
Selection....."Coppelia".....Delibes  
Salonstück....."Rosenkathchen".....Ascher  
Suite....."Peer Gynt".....Grieg  
Valse....."O Shomer Mith".....Strauss  
"God Save the King."

The Acheen war, which began in 1873, is reported to have cost Holland about 230 millions of guilders up to the end of last year. The war is in its last stage, but still drags on, the operations being now mainly against the Gayos, a tribe of hillmen who had given aid and comfort to the Achinese to whose Sultan they owed allegiance. The Sultan has submitted, and has left the Gayos to their fate, while the Achinese are said to have been so effectually brought under, that they can do nothing to help their allies.

The English cricket season has made a characteristic start. At Lord's on the 8-11th inst. Mr. Warner's Australian team made 300 runs in the first innings. In the second innings the team made 34 for one wicket. The Rest of England scored 247. The game was drawn, there being no play on Tuesday owing to the rain. The *Strait Times* telegram which gives these details also says that Lancashire beat Leicestershire by an innings and 64 runs, and Surrey beat Hampshire by 253 runs.

*Sport and Gossip* of the 15th inst. writes:—The Committee of the Hongkong Cricket Club a few days ago had a meeting at which it was decided to send a challenge to Shanghai, inviting the team to visit the Crown Colony in November next and there fight a new battle, as well as some of the old ones, over again. The H.C.C. at a cost, when it is finished, of close upon \$30,000, is building a new Pavilion in the south-west corner of their ground, and it is hoped that the match, Hongkong versus Shanghai, may witness the opening of the building.

The Sabah Steamship Company held its ninth ordinary general meeting at Sandakan, North Borneo, on the 5th April, with Mr. P. Breitig in the chair. The chairman said that business on the coast was very bad for the Company. In addition to this the North German Lloyd had been trying to capture the Company's trade and to injure its business. With regard to this the chairman made the following further statement:—There has been a great deal of gossip of late regarding the acquisition of this Company by the Norddeutscher Lloyd. It is true that for some time certain negotiations were proceeding, but as they have now been definitely abandoned it is not necessary for me to make any further reference to them.

"Even if they should lose the war and haven't that to make them feel big," remarked a doctor (quoted by the *Philadelphia Press*), "in all probability the next generation—or the next but one—of the Japanese will be as tall as the average American or European. It is the custom of sitting on the ankles on the floor—instead of a chair as we do—that explains the shortness of the Japanese leg. The arteries are kinked by the cramped position and are therefore not properly nourished. As a matter of fact, however, the Japanese spine is just of a length with the average American or European one—in fact, we all differ in height rather by reason of leg than of back, and the spinal column is singularly constant among various individuals. Now the chair has gained a place in Japanese life, and soon the length of the Japanese leg will become normal."

The Roman Catholic periodical *Les Paroles Françaises* says:—The only result of the Russo-Japanese war which can as yet be said to be certain is the ruin of a French foundation—namely, that of the Catholic missions. If the Russians should eventually turn out to be crippled victors in a long struggle, the sympathy which binds France to the Empire of the North will not save the priests who propagate the Roman Catholic faith. For violent hatred has always existed between the Russian popes and the fathers of the French missions. The scandalous scenes of daily occurrence between members of the Orthodox and Roman Catholic faiths at Jerusalem are the exact model of the scenes illustrating the history of Christianity in Japan. The example of fraternity is not given in the Far East by the mystical envoys of the Russian Church. These Orthodox missionaries are intelligent, keen traders. On the other hand, they are easy-going in matters concerning religion, and all they ask of the Japanese is the right to molest French missionaries. If Russia should be victorious, she will endeavour to extend her political influence through the ministers of her national religion, and she will do so to the great prejudice of the religious *pratiques* of France.

## TELEGRAMS.

"DAILY PRESS" SERVICE.

[FROM OUR OWN CORRESPONDENTS.]

## THE WAR

THE "BOGATYR" DISASTER.

KORE, May 21, 12.30 p.m.

The *Bogatyr* stranded at the entrance to Vladivostok in a fog and sank.

[This confirms the telegram from our London correspondent which appeared in our issue of Saturday. The *Bogatyr* was a cruiser of 6,750 tons displacement, and 23 knots speed. She was built at Stettin, being launched in 1900. Her armament is given in the Naval List as 12 6-in. quick-firing guns, 12 3-in., 6 1-8 Hotchkiss. Her complement is given as 580. Our London correspondent's telegram, which was apparently based on Russian information, stated that all the crew were saved.—Ed. D.P.]

## REUTER'S SERVICE.

THE WAR.—JAPANESE REPORT D RETIRING.

LONDON, 19th May.

Despatches from General Kurapatkin to General Sakharoff describe the Japanese evacuation of several points in advance of Liacoyang and their retirement on Fengwangcheng where they are constructing earthworks. The rain has rendered the roads bad.

## CONTRABAND OF WAR.

LONDON, 19th May.

Lord Lansdowne states that Russia has replied to an enquiry about the notification of the 11th instant, re cotton being contraband of war, that it applies to low grade cotton only.

## THE LOSS OF JAPANESE WARSHIPS.

LONDON, 20th May.

The newspapers express sincere sympathy and great regret at the loss of the *Hatsuse* and the *Yoshino*.

## SIBERIAN PORTS OPEN.

LONDON, 20th May.

It is expected in St. Petersburg that Russia will shortly proclaim the Siberian ports, including Vladivostok, open to commerce.

## AUSTRIA-HUNGARY.

LONDON, 19th May.

The Austro-Hungarian Minister for War has explained to the delegations that the exceptional expenditure is in nowise connected with the political situation, but that it is necessary in order to make up the leeway in regard to re-arming the artillery and the equipment of vessels in accordance with modern developments of the science of war.

## OBITUARY.

LONDON, 20th May.

The death is announced of Mr. John Kewick, of Messrs. Jardine, Skinner, and Co., of Calcutta.

LONDON, 20th May.

The death is announced of Sir Jamsotjee Nussawanjee Tata, the Parsee millionaire.

## CANTON NOTES.

[FROM THE "CHUNG NGOI SAN PO."]

## IMPERIAL EDICTS.

An Imperial Edict was issued on the 17th inst. in response to the memorial presented by Viceroy Shun, who asked the Throne to punish the officers connected with the murder of the false Hung Chuen-Fook in Hongkong. The Edict states that the military officers, named Ho Wei-Chang, Lam Shan, Fong Hing-Kwok, Su Ying-Chun, Lau Kam-Yut, and Chu Cheong (deceased), who had no right to induce persons to proceed to foreign soil to commit the said crime for the purpose of gaining rewards, are to be deprived of their titles and ranks, and dismissed from office, and that Admiral Ho Cheung-Ching is also to be dismissed from office for failing to control the officers from committing such a crime.

Another Imperial edict was issued on the same day appointing Ip Chap-kwai Commandant of the Wan-Chow garrisons in Chekiang province, to take the place of Admiral Ho Cheung-Ching.

## NAVAL NOTES.

## A NEW NAVAL GUN.

The British Admiralty has decided, after a very extended series of trials, to adopt for naval requirements a new quick-firing gun. This will fire a projectile weighing 3lb. It is much more powerful than that firing a similar projectile already in use, and is to the design of Vickers, Maxim, and Co. The cartridge will be charged with modified cordite, while the gun, which is capable of exceptionally rapid aim fire, will be fitted with automatic sights. The Naval trials have been carried out under the direction of the captain of His Majesty's ship *Excellent* and the Chief Inspector of Ordnance at Woolwich.

## WAR NOTES.

## JAPANESE OFFICIAL DESPATCHES.

We received yesterday evening from the Japanese Consul a copy of the following official telegrams received by him the same afternoon:—

"TOKYO, 21st May, 2.55 p.m.

"Admiral Togo reports that the gunboat squadron with the destroyer and the torpedo-boat flotillas approached Port Arthur on the 20th instant for reconnoitring, which was successfully effected with little damage, despite the hot crossfire from the enemy's forts; no casualties for our side."

"TOKYO, 21st May, 10.35 p.m.

"A company of the enemy appeared six miles north of Takushan and was surrounded by our infantry. They fled with many casualties. A Russian captain was taken prisoner. There was no casualty for our side."

## "A CHINESE HONEYMOON."

These in the audience at the Theatre on Saturday evening who had not seen *A Chinese Honeymoon* at the Strand Theatre in London, where it ran for something like seven hundred nights, must have wondered what the London play-going public saw in the piece to become so enraptured with it. The music, though pretty, has not attained the same vogue as the music of *The Geisha* or *The Belle of New York* or several other musical comedies of recent years, and we conclude that primarily the chief attraction for the play-going public of London was the Oriental setting of the piece. That feature of the play does not, of course, possess the same attraction for a Hongkong audience. With a strong cast, however, the play does not depend entirely on its Oriental setting for its success. There is fine scope for good acting in it, and those who saw the inimitable Lonnie Frewer in the part of Fi Fi will concede this feature to have been the second cause of the play's astonishing success. This part was very well taken in the performance on Saturday by Miss Alice Wade. Mr. Percival Knight, the principal comedian of the Company, took the part of Pineapple, the Benedict on a honeymoon tour in China. His song "Happy Land," with its intoned patter after each verse, was vastly appreciated, and although he repeated the last verse, the house demanded more, but had reluctantly to be satisfied with the howling of the artist in acknowledgment. Miss Wade's song "I want to be a Lady" was almost equally well received. The sentimental duet by Miss Ernestine Walker and Mr. Frank Colburn was well sung and cordially applauded. The part of the Emperor in the piece was taken by Mr. Rees, and that of Lord High Admiral by Mr. Riley. In the second act Miss Carrie Roberts introduced a *dance fantastique* which was very well done and elicited general applause. To-night the Company play *The Sign of the Cross*.

## LAWN TENNIS.

## H.C.C. TOURNAMENT.

The position up to date is:—

SINGLES HANDICAP (CLASS A).  
Semi-final.—A. Humphreys beat E. Humphreys; R. Hancock beat P. Strickland.  
Final.—In the final tie on Saturday, A. Humphreys beat R. Hancock, both playing from scratch. Hancock won the first two sets and got to 5 games and 40-love in the sixth, when he appeared to collapse, Humphreys taking the game, the set, and the next two sets also.

DOUBLES HANDICAP.  
Semi-final.—R. and H. Hancock beat Beattie and Manning.  
The other semi-final to be played is between Martin and Strickland and Murphy and Boyd.  
CHAMPIONSHIP.  
Semi-final.—A. Humphreys beat W. L. Martin; R. Hancock beat P. Strickland.  
SINGLES HANDICAP (CLASS B).  
Final.—R. Manning beat R. B. Beattie.  
PROFESSIONAL PAIRS.  
Final.—Smith and Atkinson beat Grist and Beavis.

## A FOOCHOW ANNOUNCEMENT.

A correspondent forwards us the following specimen of English as she is printed at Foochow:—

## NOTICE.

We beg to inform the Community and Missionaries that by the causes of the prices of Fuel, Rice, etc., are exorbitant and we had been forced to pay the working of the crews at 30 cts. a day.  
If gentlemen and Ladies who wishes hair our House-Boats, kindly to pay according the undermentioned.  
Hair for Green Island Shooting \$3.50.  
Hair for Kuliang \$5.30.  
Hair for upward or downward of Min River \$3.50 a day.

## THE HOUSE-BOATS CO.

## LATEST STEAMER MOVEMENTS.

The C.P.R. steamer *Empress of China* arrived at Shanghai at 5 a.m. on Saturday, the 21st inst., and left again at 2 p.m. same day for Hongkong, where she is due to arrive at 9 a.m. on Tuesday, the 24th inst.  
The C.P.R. steamer *Empress of Japan* left Yokohama for Vancouver (B.C.) on Friday, the 20th inst., p.m.  
The C.N. steamer *Chingta*, from Australian ports, left Sydney on the 20th inst., and is expected here on the 11th prox.  
The G. & M. steamer *Rubi* left Manila on the 21st inst., at 11 a.m., and is due here to-day, at 1.30 p.m.  
The Indra Line steamer *Indramayo*, from New York, has arrived at Manila, and is due here on Thursday, the 26th inst.  
The C.N. steamer *Chihki* left Tientsin for Chefoo on the 21st inst., and is expected here on the 29th inst.

## VICTORIA RECREATION CLUB.

## THE NEW BATH-HOUSE.

Considerable discussion may take place regarding the new bath-house scheme at the coming V.R.C. annual meeting. From what we can gather there seems to be a division amongst the Committee, one section being strongly in favour of building a covered bath, and the other thinking the idea impracticable. The chief objection, apparently, is that, as there is only a five-foot rise and fall of tide, a sufficient depth of water could not, with an ordinary sea-cook, be obtainable—that is if, of course, the bath were built on such a level as to be self-drainable.

It was then queried, "Why not have a steam pump, and pump the requisite depth into the bath every day?"

A steam pump, it seems, would be a very expensive item, \$2,500 perhaps, and then it would be necessary to provide fuel and keep a donkey-man. This, in the opinion of some of the committee we understand, is considered to involve too heavy an expenditure. They are, perhaps, going to recommend outside bathing.

When the new Naval Dock is completed there will, naturally, be quite an amount of launch traffic—there is at present, for that matter—around the point adjacent to the new V.R.C. site, so, besides the danger of the launches themselves, swimmers in the open would have to encounter the backwash. Then, again, we have the matter of sewage—a small sewer discharges at outlet near by, and sewage of course, mainly floats on the surface. In contradiction to this it is said that there is a strong "rip" cutting around the point. If this be so then the place is not suitable for swimming.

It is quite evident that if the bath is to be outside at all—it is to be sincerely hoped that it is not—there will have to be a piled-in enclosure, similar to the old Hongkong-side affair. The old bath, as is within the memory of many, was not really an ideal one. It was impossible to keep the piles clear of sea-grass, and, what is worse, barnacles. Jelly-fish and sewage, too, constantly found a passage between the piles; and the enclosure was not complete enough to be unaffected by water disturbances outside. Furthermore, if you were to build a pile-enclosure bath, imagine the length of pile necessary. They would not only have to extend downward considerably further than from the surface of the water to the bed of the harbour—a pretty good depth in that vicinity—but they would have to form a sort of paling above the surface of the water. Such a swaying structure, indeed, that might be blown down by a typhoon.

On the other hand, it has been urged that a 100 by 35 ft. bath would be hardly large enough, from a sanitary standpoint, for 60 to 100 swimmers at one time. This statement, however, is particularly absurd when it is considered that the water—salt water at that—would be changed every day. Public baths in London, for instance—fresh water baths—have, in summer time, their water changed only twice a week, and hundreds of people bathe in them between shifts; in winter the water is only changed once a week.

Another good point about having a bath-house is that for concerts, entertainments, etc., the water could be boarded over, and there would be a magnificent hall.

In face of all this it is to be concluded that the bath-house is desirable. How is the V.R.C. to get over the difficulty? Well, in the opinion of an engineer, a duplex manual pump, costing say \$500 and worked by four men—and there are about four Chinese boatmen with very little to do—could pump a couple of feet into the bath in as many hours. This would cost the Club nil, excepting the initial expense, \$500. If the bath was built two feet below low-water mark there would be no necessity to pump any water in at all, and all the water in the affair excepting two feet could, if desired, be changed with every tide. The bath could be cleaned twice a week by pumping out the two feet of water—the pump would work both ways.

## MINING IN BORNEO.

Mining prospects in British North Borneo are looking up as regards manganese and iron. The *Herald* of Sandakan makes much of the success of manganese prospecting in the Marudu Bay district on behalf of the B. N. B. Mineral Syndicate. It seems that, from the present state of the developments, with no surveys of the various deposits, no correct estimate may be formed of the ultimate quantity of available manganese ore, though it is calculated that the first year of operations should produce 25,000 tons of good marketable ore. After that time, provided the working of other localities be continued, an output would be available of something like 40,000 tons annually, and this, say, for the next twenty-five years. No wonder that the *Herald* considers the outlook to be highly promising. It is at the Labuk District that the next metallurgical triumph is looked for. There a rich deposit of iron ore has been revealed by Mr. J. Saxton, an experienced mineralogist, in the vicinity of the Bidu Bidu hills. The District Officer at the Labuk, Mr. G. C. Irving, says that the deposit, which extends three miles northwards, is exposed to view all over the surface of the hills and is of sufficient value to justify the immediate formation of a company to work it. Naturally, great preliminary expense must be expected in establishing transport, as the Labuk River for some distance is but a succession of rapids, which would by no means facilitate getting the iron ore to the coast. In fact communication with Sandakan would probably necessitate the construction of a railroad. At present a sample of this rich ore, says that journal, is on its way home to be assayed by experts, and upon the quality being confirmed immediate action may be expected.—*Straits Times*.

## HONGKONG JOTTINGS.

The smallness of the birth-rate among the Chinese in the Colony certainly calls for remark, but there is something more to be said on the subject than what one is accustomed to find in the Registrar-General's annual report. "The number of the Chinese births registered," the Registrar-General says, "does not give an accurate record of the total number of births of Chinese that have occurred in the Colony, for many of the infants that die during the first month or so of life remain unregistered." But as it has been customary to add to the registered births the number of infants of one month old and under that die in the Colony, and as I suppose those children which survive the first month do eventually come on to the register, the corrected birth-rate which the Registrar-General gives us may be taken as approximately correct. The rate here must certainly be far below that of any town on the mainland, and the explanation must surely be found in the great preponderance of males among our Chinese population, for it seems to be quite the thing for the wife to live at Canton and the husband in Hongkong. This state of things has been brought about by the increasing cost of living in Hongkong owing to the growing density of the population, and the necessity for sanitary measures which have resulted in making living more costly for the Chinese, particularly in regard to rents, than their limited resources will stand. Our population shows astonishing growth, but it is growth by immigration.

Now that one is able to put two and two together, it is not altogether surprising that the Opium Farmer should be willing to pay the enhanced price of over two million dollars for the Opium Farm. When the contract was fixed people began to cast about for a cause for the increased tender. The cause now appears. It is an open secret that the Transvaal Mining Syndicate want, not 50,000 coolies as originally stated, but 300,000; and the opium required to supply that army of Chinese—equal to the population of Hongkong—should bring in sufficient profits to justify the Opium Farmer in putting in his tremendous offer for the traffic.

The most stirring incident of the week has been the passage at arms between Mr. May the Governor and Mr. Pollock in the Legislative Council on the occasion of the Opium Bill debate. Mr. May asked the hon. member very brusquely if he were a paid agent in his advocacy of the opposition to the Bill. Mr. Pollock very warmly replied, repelling the charge and referring to his years of public life in Hongkong as a sufficient answer to the allegation. Sir Henry Berkeley, however, struck a true note when he said that the hon. member could not be expected to be an unbiased observer of the situation considering that he had been professionally employed in drawing up the two petitions by the Chinese against the Bill.

A correspondent recently wrote pointing out that the method of taking up European offenders to the Police Station as practised by the police was not calculated to impress the Chinese in the views they hold about foreigners. Certainly it is not a pleasant spectacle to see a white man haled along the street by, say, an Indian and a Chinese *lakong*. But if an European goes to the length of making a fool of himself in public by getting intoxicated and making an exhibition of himself little can be said against the methods the police employ in dealing with him. There is a question whether it is better to allow an European to make an exhibition of himself on the street to the delation of the Chinese or for the police to "run" him to the station, whatever the nationality of the police may be. As for providing glarries for drunken Europeans, as suggested by your correspondent, that, in my opinion, would simply be placing a premium on drunkenness. When the Chinese see that an European cannot commit a breach of the peace with impunity it must impress them with the idea that there is no such thing in Hongkong as one law for the whites and another for the natives.

Many Hongkong people will remember W. Musket, late of Watson's, who was a well-known writer in the newspapers under the pen-name of "Lonic." When he died some three years ago a movement was set on foot to erect a stone over his grave. Mr. N. K. Davidson took the responsibility of seeing the scheme through, and it has now been consummated by the erection of a memorial stone over the deceased's remains at Happy Valley.

A local naturalist writes to me:—"The other night as I was walking up Zetland Street I saw two toads. Watching them for some time I observed them to jump into a crevice in the great stone wall, where, no doubt, they have made a little house. In the summer they must get rather dry, but, perhaps, during their nocturnal wanderings they absorb sufficient moisture from the atmosphere. We have heard of toads hopping out of solid stones when broken; but I believe there is no foundation for such tales. These ancient, queer-looking inhabitants may often be heard croaking about Ico House Street at night-time."

Constable John Godfrey, a familiar figure for many years at the Magistracy, left for home by the English mail on Saturday after 15 years' service in the Hongkong Police. He was as popular as he was well known. Many years ago, while he was stationed at Stanley, there was a report that a tiger had been committing depredations in that neighbourhood. Searching for the animal, P.C. Godfrey had the misfortune to trip over a tussock, with the result that his carbine went off and the shot passed through his right wrist, permanently injuring the limb.

BANYAN.

## CORRESPONDENCE.

## AN OFFICIAL "ARMY JOURNAL."

TO THE EDITOR OF THE "DAILY PRESS."

War Office, London, S.W., 15th April.  
Sir,—Allow me to enclose for your information a copy of an Army Order which has been issued to the Army at home and abroad, regarding the institution of the *Army Journal of the British Empire*.

I shall feel obliged if you would kindly give prominence in your columns to this Army Order, so that it may be brought to the notice of the general public as well as to that of those officers and soldiers, either serving or retired, who reside in the districts in which your journal circulates.—I am, yours faithfully,

N. G. LITTLETON.  
Chief of the General Staff.

[Enclosure.]

ARMY ORDER.

Special.

War Office, 14th April, 1904.

The following instructions are promulgated to the Army by direction of the Army Council:—  
"THE ARMY JOURNAL OF THE BRITISH EMPIRE."

1. The Army Council have approved of the institution of a military publication to be called *The Army Journal of the British Empire*.  
2. The journal is intended to deal with subjects of a professional and scientific nature, to encourage the study of military science and history, to circulate information on military matters, and to promote as far as possible a knowledge of the principles of Imperial defence amongst all ranks and all arms of the military forces of the Crown.

3. The Army Council hope and confidently anticipate that the journal will receive the fullest support from the entire British forces throughout the Empire.  
4. Officers and soldiers of all services on the active, reserve, or retired list of the military forces of the Crown in any part of the British Empire are invited to submit articles for insertion in the journal. Special articles by eminent civilian writers will also be published from time to time.

5. No payment for contributions will be made, but prizes will be granted from time to time for essays and articles on special subjects. Instructions regarding these prizes will be promulgated in the first number of the journal.

6. The following suggestions are given as a general guide to the nature of some of the subjects that might be dealt with by contributors:—

(a) The discussion of new theories, discoveries, or experiences in military matters; records of the progress of military science in British and foreign armies; historical memoirs or reviews; translations of and extracts from British and foreign military publications; provided that the necessary sanction for such translations and extracts has been previously obtained. Reports on foreign armaments and expeditions; campaigns; experiences and reports on special expeditions and journeys undertaken by British officers and men. Information regarding stations at home and abroad, with respect to climate, clothing, accommodation, currency, and other local conditions which may be useful to officers and men quartered at, or proceeding to, such stations. &c. &c.

(b) Reports on the results of various experiments in administration, organisation, education, training, arms, equipment, staff rides, regimental operations and exercises of special interest, winter essays and lectures of exceptional merit. &c. &c., provided they are submitted, in the case of officers and soldiers on the active list, through the usual official channel.

All contributions may, when necessary, be accompanied by a limited number of illustrations, plans, diagrams, or photographs.

7. The journal will be published monthly. The annual subscription will be 10s. 6d., exclusive of postage. The price of a single copy will be 1s. 6d., exclusive of postage.

8. The date of issue of the first number of the journal, and the names of the publisher and his agents at home and abroad from whom it may be purchased, either directly or through any bookseller, will be notified in a subsequent Army Order and announced in the Press.

Remittances should not in any case be sent to the War Office.  
9. All contributions submitted for acceptance should be signed by the contributor, who, unless a civilian, should also give his rank, the regiment or corps in which he is serving or has served, and the appointment, if any, that he holds or has held in the military forces of the Crown, together with his postal address. In the case of non-commissioned officers and men, their regimental or corps number should also be given.  
Contributors are requested to state, when forwarding their contributions, whether they wish their names to be published or not. Should they prefer their names to be withheld, the authorship of the contribution will be treated as confidential.

Anonymous contributions will be ignored.  
All contributions (except as provided in paragraph 6 (b)) may be sent direct to the War Office (see also paragraph 17).

10. Criticism of official measures or regulations, matters of discipline and other kindred subjects are not within the scope of the journal, nor can contributions of a personal nature be accepted.

11. Letters commenting on articles in previous numbers of the journal will, if considered suitable, be inserted.

12. No responsibility will be accepted for statements contained in any contribution which a contributor may submit.

13. Contributions which are found unsuitable for insertion in the journal will only be returned to the sender, provided that a request to that effect accompanies such contribution; but no responsibility can be accepted for the loss of, or damage to, MSS., illustrations, drawings, &c. Although the journal may not appear for a few months, proposed contributions will be gladly received at once so that material for the first issues may be arranged forthwith.

14. All MSS. should be on one side only of the page. It should be preferred by type written, but, if not, all proper names should be written in capital letters (or printed) to avoid mistakes.

15. Unless objection is expressly stated by the contributor, the right will be reserved of inserting summaries or extracts from articles submitted.

16. The source from which all non-original contributions have been obtained should always be stated.

17. Ordinary articles should not as a rule exceed 6,000 words, with three or four illustrations, plans, &c.

18. All contributions should be addressed to the Chief of the General Staff, War Office, 68, Victoria Street, London, S.W., the words "Army Journal" being written on the left-hand top corner of the envelope.

## THE CLOCK TOWER.

TO THE EDITOR OF THE "DAILY PRESS."

Sir,—The once much-abused Clock Tower has had a long rest, and when I write to you under this heading, I by no means intend to revive abusive language demanding that the whole affair should be removed instantly to a more suitable site. Hongkong is doing so much in the public building line that we must, of course, wait for more cash in hand before accomplishing everything. The Clock Tower even where it is, blocking up a main thoroughfare, is a great convenience, affording as it does a means of always knowing the correct time—that is by day. I say "by day" because, through the negligence of whoever is responsible, one cannot see the time by night. Perhaps the inside of the glass is covered with soot and requires cleaning—what the cause is I cannot say. What I do know is that for several nights I have been unable to read the dial—I mean before midnight—although my bedroom window is quite adjacent to, and facing the tower. I hope the matter will be attended to.—Yours, etc.

TIMEKEEPER.

## THE KOWLOON-CANTON RAILWAY PROJECT.

It is perhaps a good thing at the moment that the new Governor to arrive shortly in Hongkong will reach there, remarks the *Singapore Free Press*, when a decision must be immediately taken to carry out an important work having its base on the mainland. That is the long-projected railway from Kowloon to Canton, giving connection with the Canton-Hankow railway now under active construction. The concession for the Kowloon-Canton line has lain too long in ineffective hands, and the sooner any penalty clause attached to non-performance is given effect to the better. We cannot see why the British Minister at Peking, the Government at Hongkong, and the Chinese authorities at Canton, should not see about independent authority being given to have the work carried out directly under a Hongkong Government or Imperial Government guarantee. We have Government railways in the Federated Malay States, and what purpose is to be a railway in this island, whose chief value is that it is a permanent monument to the Crown Agents' incapacity, and an awful "evil example" when compared with the F.M.S. lines. Sir Mathew Nathan is not only a high authority on defence, but, as a Royal Engineer, as having served in the Sudan, and governed the Gold Coast, he knows well the value of improving rapid communication with the great back-country of China. Let Hongkong take a leaf out of the book of Russian thorough railway policy, and at any cost see the line constructed out of hand, a double line, too, to begin with. If the harvest is to be reaped, there should not be a moment lost in getting the seed put into the ground. But, at all hazards, by some mode of delegation, keep the Crown Agents clean out of it.

## NORTH CHINA RAILWAY BONDS.

"Scrutator" writes to the Editor of the *Financial Times*:—

Sir,—For some time there has been in circulation in certain usually well-informed quarters a report to the effect that, an arrangement has been made for an early settlement of the debts of the 1st March, 1899, of the North China Railway, which are still outstanding. This has led to an advance in price of about 8 per cent.—namely, from about 85, on and for a fortnight prior to, the 8th March, to 93 on the 15th April. The period referred to has been marked by the continuance of war in the Far East and by the default on the 9th March under the railway contract of 9th July last. This rise, at this juncture, is, therefore, even if *bona-fide*, a very remarkable one, as during the time referred to no other Imperial Chinese Bonds have risen over 1 per cent. Strange to state, however, on inquiry of the proper parties, no payment has yet been received, nor has any bank or financial house in this country advised them of its having undertaken on behalf of the Chinese Government to pay the debts at a specified date. Plainly, till this latter is effected any marked rise beyond the Chinese par price (which in this case is £90) is premature, and even from that figure there falls to be taken into account the present situation arising from the state of war in the districts bordering on the Gulf of Pechili. The recent upward movement of the past few weeks is, therefore, not justified by the existing facts, and investors must, meantime, be content to await the receipt here of the remittance of what is required to liquidate the long overdue obligations in this country of the late Imperial North China Railway Administration.—I am, &c.,

SCRUTATOR.

## HONGKONG VOLUNTEER CORPS.

At the Ambulance Class Examination held on Wednesday, the 11th instant, the following members passed:—

Gunner C. B. Hayward, Gunner J. P. Jordan, Gunner H. C. Sayer, Gunner E. Raymond, and Gunner S. R. Moore.

## BEACHCOMBERS AT HONGKONG.

Unwashed, filthy-dressed beachcombers are, in spite of the continued efforts of the Police, still numerous at Hongkong. Even those at the House of Detention continue their old ways when let out to look for work. This class, together with repulsive Chinese freaks of nature, beging at the wayside, form one of our local pests. At night-time many undesirable seek shelter in Wanchai matchsheds and elsewhere. On one occasion some men were charged at the Magistracy with unlawfully occupying a pigsty. Such loathsome, "born-tired" specimens of humanity are a danger to the health of the Colony, and public parks should be debarrd from men of unspeakable filthiness.

## POLICE COURT.

Saturday, 21st May.

BEFORE MR. H. H. J. GOMPERTZ.  
(ACTING POLICE MAGISTRATE.)

CRUELTY TO SHEEP.

A Chinese shepherd, Li Sum by name, was charged with having caused unnecessary and avoidable suffering to a number of sheep. It appears that when Inspector McEwen was strolling along Praya West, he noticed a flock of sheep near the edge of the water-front, and the bleating attracted his attention. Men were throwing them into a junk, a drop of fourteen feet. The inspector stopped the proceedings, and arrested Li Sum; the other men ran away. His Worship imposed a fine of \$20, or one month's imprisonment.

VAGRANTS.

Five Americans were charged with vagrancy. Inspector Langley explained that the men were seamen. About three months ago they stowed away on a vessel at Capetown, and were arrested and sentenced to a month's imprisonment each on arrival at Hongkong. Singapore passed them on to Hongkong. They were now entirely without means of support, 17, being the sum total of their wealth. His Worship ordered that the defendants be sent to the detention house.

BEFORE MR. J. H. KEMP (SECOND POLICE MAGISTRATE).

ALLEGED FORGERY.

Six Chinamen were charged with possession of a wooden stamp by means of which they could "chop" forged stamps on packets of Opium. It appears, also, that they were found in possession of twelve boxes of opium without a certificate from the Opium Farmer. After evidence of arrest had been taken, the case was remanded for a week to enable the Farmer to secure evidence of the forgery, the men being released on bail of \$2,500 each.

## GERMANY AND THE WAR.

In the German Reichstag on the 12th April Count von Bülow dealt with the subject of the war in the Far East. He said:—

With regard to the conflict in East Asia our attitude is plain. Since it has been proved impossible to preserve peace, we are doing what we can to prevent the war in the Far East from developing into a general war. Our neutrality is indeed sufficiently accounted for by the fact that we have no reason to intervene in a war which does not directly affect German interests, and, finally, this course is the surest means of preserving from injury as far as may be our commerce and our economic interests. We have repeatedly been reproached with having been taken by surprise when the war broke out. I have even read somewhere that by our excessive optimism we lulled others into an unwarranted sense of security. I could reply that the leading Ministers in London, in Paris, and in St. Petersburg, and even the representatives of Japan in Paris and St. Petersburg, appear, as a matter of fact, to have been surprised by the outbreak of the war. I might also lay stress upon the circumstance that even those non-Japanese statesmen who believed that the Japanese boiler had been heated up to a point at which it would soon emit steam did not foresee that the Government in Tokyo would choose the precise moment which it selected for breaking off diplomatic relations. I will merely point out that at critical junctures of this sort the Government has to consult the great foreign interests of the country and has, above all, to see to it that when a storm is brewing the ship of State is not dashed upon rocks or shoals. If we had employed pessimistic language before the outbreak of the war, if we had employed more pessimistic language than was held elsewhere, we should have exhibited ourselves in St. Petersburg in the aspect of instigators of that war. On the other hand, we had no right to attribute warlike intentions to the Japanese Government so long as Japan had not declared war. It was thus our duty to keep as quiet as the other centres of European politics, and perhaps even a little quieter, since we were less interested than others were. We have also been reproached with having interested ourselves in behalf of the neutralisation of China. But here, too, our attitude was prompted by irreproachable motives. It was, and I may safely say it is, the interest of all the Powers—it is, at any rate, the interest of German policy—that the war in East Asia should not develop into a general war (*Weltkrieg*). The exclusion of the great Chinese Empire from the war materially promotes the achievement of this object. The neutralisation of China was, moreover, a good means of reassuring the Chinese Court and the Chinese Government. The apprehension of being involved in the war might have caused the Chinese Court to leave Peking, and this would have imperilled the security of the Europeans in China. By our advocacy of the neutralisation of China, which was besides the best refutation of the widely-circulated calumny that we intended to turn the war to account in order to appropriate portions of China—by our advocacy of Chinese neutrality, I say, we consider that we rendered the best service to the cause of European peace in general and more particularly to our own interests.

In a further debate on the 14th ult. Herr Bebel stated it was not the business of the German Empire to secure a neutralisation of China in the interests of Russia; and what about the sale of the steamship *First Bismarck*, which appeared as an "auxiliary cruiser" in the German Navy list? He felt sure that the Foreign Office had been consulted before the Hamburg-American Line sold the *First Bismarck* to the Russian firm which acted on behalf of the Russian Government.

Herr von Bülow said with reference to the neutralisation of China, no violence had been done to that country, since this policy was in accordance with the inclinations of the Chinese Court and the Chinese Government. Nor was Japan offended, since the Japanese Government had hastened to give its adhesion to the declaration of the Powers. The sale of German ships to foreign firms was admissible. It was at least a matter of doubt from the point of view of international custom whether any objection could be raised to the sale. During the war could he recall to the sale of two steamers belonging to the Hamburg-American Line had been sold to an English firm, which had disposed of them to the Compania Transatlantica at Barcelona. The Japanese could also buy German ships if they liked.

## SHARE REPORT.

Messrs. Erich Georg & Co., say in their Weekly Share List dated Hongkong, 21st May:—  
We have to report upon a rather active week and a further improvement in values. The sterling demand rate on London closes at 1s. 9½d., while the rates on Shanghai are unchanged. Barsilver in London is quoted 25½d., and Consols £904.

BANK SHARES.—Hongkong and Shanghai have ruled steady at \$66½, but no business has come under our notice; the London rate is £65. 5s. Nationals have been done at \$38, and more shares could be placed; at \$38½, however, a few are on offer.

MARINE INSURANCE SHARES.—Unions sold and have sellers at \$550. China Traders fetched \$60, at which figure a few are offering. North China are obtainable at Tls. 65. For Yangtzes we follow the latest quotation from the north, which is \$130 sales. Cantons have been done and are wanted at \$210.

FIRE INSURANCE SHARES.—Hongkong have advanced to sales and buyers at \$310. Chinas have changed limits in fair lots at rates ranging between \$83½ and \$85, and close steady at latter rate.

SHIPPING SHARES.—Hongkong, Canton and Macao Steamboats have improved their position considerably, and up to \$31 has been paid at which rate there are further buyers. Indo-China opened quiet on Monday, and shares sold as low as \$101, but they rallied quickly and an important business has been done during the week at steadily rising rates, the highest points paid being \$112 cash and \$117 for 31st December, at which rates shares can be placed; Shanghai wires a cash quotation of Tls. 81 buyers, and London quotes 29. 10s. 6d. We hear that this Company will declare a dividend of 3 per cent. for the past year. China and Manilla sold at \$30 to \$32, and are wanted at latter rate. Douglas has sellers at \$35½. Star Ferries are in demand at last quoted rates; the report, which is expected to be a very good one, will be out shortly, a dividend of 18 per cent. and a bonus of 4 per cent. will be declared; the 6th ordinary annual meeting of shareholders will be held on 1st proximo, transfer books closing from 25th instant to 1st proximo. Shell Transports have weakened; they sold at 27s. to 26s. 6d. and are on offer at latter rate; the London quotation is said to be 25s. 6d.

REFINERIES.—China Sugars have kept quiet; a few sold at \$146 for the settlements, and there is nothing doing in the stock at present. Luzons are quite neglected at \$8.

MINING SHARES.—Fungies are weak, the report and statement of accounts for 31st December last has appeared in print, and show a loss in working of \$43,438.58, thereby increasing the debit balance of working account to \$364,437.82. Charbonnages are unchanged. Rauba have been in fair request and sales have been put through at \$31 to \$37, at which latter rate the market is steady; the "Hongkong Telegraph" of 18th instant prints the General Managers' Report for the four weeks ended 23rd ultimo.

DOCKS, WHARVES AND GODOWNS.—Hongkong and Whampoa Dock Company's shares, after being pressed down to \$210, are much firmer again with sales and buyers at \$215; a sale at \$220 for 31st August is also reported. Hongkong and Kowloon Wharf and Godown Company's Shares have improved further, and, with sales at intermediate rates, there are buyers now at \$113; shares sold at \$115 to \$116 for 31st August. New Amoy Docks are unchanged. Farmanhas weakened to Tls. 149, but are in demand again at Tls. 150, a sale at Tls. 155 for 30th September is also reported. Shanghai and Hongkong Wharves sold at Tls. 152½ cash and at Tls. 155 for 31st August; they are quoted in Shanghai Tls. 150 buyers.

LANDS, HOUSES AND BUILDINGS.—Hongkong Land Investment and Agency Company's shares changed hands at \$158 to \$160, but close quieter with a few shares offering at \$159. Kowloon Lands are unchanged. West Point has improved, they sold at \$55, but can be placed now at \$57. Hongkong Hotels changed owners at \$128, but more shares are on offer. Humphreys' Estate and Finance Company's shares sold up to \$124, and have further buyers; the new shares are wanted at \$4. Shanghai Lands sold at Tls. 108.

CORRIG MILLS.—Without any sales and unchanged.

MISCELLANEOUS.—Green Island Cement shares had another jump, they sold up to \$274 and more shares can be placed. A. S. Watsons changed hands at \$144, at which rate the market is strong; the 19th annual ordinary general meeting of shareholders in this Company will be held on 31st instant, transfer books closing from 25th instant until 1st proximo. Immediately after that meeting an extraordinary general meeting will be held when a resolution will be proposed "that the capital of the Company be increased to \$800,000 by the creation of 30,000 new shares of \$10 each." Electrics are in request at \$134 for old and \$74 for new shares. Hongkong Steam Wharves sold up to \$164 and have further buyers. Dairy Farms can be placed at \$144. China Provident have been negotiated at \$9. William Powells are up to \$10½. Langkats, after touching Tls. 310, are quoted Tls. 302½ in Shanghai; a second interim dividend of Tls. 10 per share, in respect of the current year's working, will be payable on 15th proximo, transfer books closing from 8th to 15th proximo. The following telegraphic information, dated 16th instant, has been received from the manager in Langkat: "Daily aggregate output of crude petroleum 72,000 gallons; crude petroleum in tanks at date 290,000 gallons; kerosene made since the date of the preceding half-monthly telegram 67,000 cases, kerosene shipped since 66,000 cases; and kerosene in stock at refinery at date 78,000 cases."

**PRODUCE the Highest Class AERATED WATERS in the Far East on account of their High Class Machinery and also of the superior ingredients they use in the manufacture of their goods, and the cleanliness, &c., are all under strict supervision of Europeans only.**

**REPORT OF AN EXPERT.**  
The representative of Messrs. BRADY and HINCHLiffe, Limited, Aerated Water Engineers and Chemists, Manchester, visited our factory recently in the course of a tour amongst Eastern Aerated Water Makers, and was greatly surprised at the compactness of our factory and also the methodical way in which everything pertaining to the making of Aerated Waters was carried out. He also expressed himself strongly on the absolute cleanliness of our whole establishment, which he assured us was equal to any he had yet visited and superior to a great many. He also reported that the quality of our goods was of a first-class nature, and they showed that scrupulous care was exercised in the course of their manufacture.

Order Books and Price List. Please apply to  
**FACTORY and OFFICE, West Point, Tel. 367, Dopok Ice House Street, Tel. 374.**  
**Dr. V. DANENBERG & F. P. DANENBERG,**  
General Managers.

STEAMER, 715 TONS GROSS, FITTED  
WITH POWERFUL SALVAGE PLANT  
READY AT SHORT NOTICE 178

## AN APPEAL

THE SISTERS who direct St. ANTONIO'S  
CONVENT at Macao will be very thankful  
to Shop-keepers, Linen-drillers, Clothiers  
and Tailors in Hongkong, Macao, and elsewhere who  
will send them remnants of material, books  
of patterns no longer used, and any pieces of  
cloth, no matter how small, of which they can-  
not make use.

Those who send will thus, at no cost to  
themselves, afford the numerous hands in the  
convent, especially the little ones, opportunity  
for useful occupation; for pieces of cloth, even  
of a square inch, can be stitched together and  
very pretty pieces of work made out of cloth  
that would otherwise be thrown away. These  
articles are bought by charitable persons, and  
the Sisters are thus helped to keep up their  
very large establishment, which is maintained  
by the aims of friends and in a great measure  
by the earnings of the girls themselves, who lead  
by no means an idle life within the convent  
walls.

Hongkong, 18th May, 1904.

[1274]

## NOTICE OF FIRM

REVOCATION OF POWER OF  
ATTORNEY.  
THE CHUANMAN GAN KANG SIOE,  
Trader of Samarang (Java) has revoked  
all Powers of Attorney given to KUNG  
TONG DJANG (also written KANG  
TONG DJANG LEANG or KANG  
TONG CHEANG), of Amoy, carrying on  
Business under the Style or "HANG KEE  
HONG," especially the power of attorney  
given to him by deed dated 6 December, 1902,  
passed before the temporary notary acting at  
Samarang, J. H. A. van Barneveld.  
J. G. L. HOUTHUYSEN,  
Notary Public at Samarang.  
Hongkong, 3rd May, 1904. [1172]

## REGISTRAR-GENERAL'S REPORT FOR 1903.

The report of Mr. A. W. Brewin, Registrar-  
General, for the year 1903 is published in the  
Gazette. We make the following extracts:—

## REVENUE AND EXPENDITURE.

The revenue collected during the year  
amounted to \$160,351.81, as against \$136,888.13  
collected in 1902, being an increase of \$23,463.68.  
The number of Chinese who were granted  
certificates of identity to enable them to enter  
the Philippine Islands increased from 43 in  
1902 to 119 in 1903. The increase to the  
revenue under the heading "certificates to  
Chinese entering Manila and the U.S.A." is  
\$1,650.00. Market revenue shows a further  
increase of \$9,315.81. All markets with the  
exception of Tai Kok-tai share in the increase.  
The revenue from the Des Vaux Market,  
which is situated in Des Vaux Road Central  
near Wing Shing Street, and was opened in  
September, was \$1,824.16, but this revenue will  
not be maintained. There is very little demand  
for stalls, and most of the original lessees have  
already surrendered their holdings. Fees under  
the Marriage Ordinance show an increase of  
\$897.90 and under the regulations for emigra-  
tion houses one of \$1,350.00. The revenue from  
hawkers' licences shows an increase of  
\$8,722.00. In August the regulations govern-  
ing the issue of hawkers' licences were altered.  
Previous to that date the licence-fee, which was  
\$2.00, was paid quarterly. The fee has now  
been raised to \$4.00 and is paid half-yearly.  
The number of licences issued during the last  
quarter of the year was 5,997 compared with  
7,773 in the last quarter of 1902.

The expenditure during the year was  
\$26,755.61, compared with \$24,206.33 in 1902.  
The increase is due to various increases of salary  
to some of the members of the staff, and to regu-  
lar increments of salary to others.

There has been a very large increase in the  
number of women and girls whom the Regis-  
trar-General had reason to believe required  
protection. 820 persons were admitted to the  
P. L. K. K. during the year, compared with  
617 in 1902. The disturbed state of parts of  
the Canton Province, the famine in Kwangsi,  
and certain restrictions imposed on the boats at  
Canton, are some of the causes to which this  
increase is due.

## EMIGRATION.

One hundred and forty-four emigrants were  
detained for inquiries, and the usual arrange-  
ments were made for restoring to their friends  
and relatives those who were found to have been  
persuaded to emigrate under false pretences.  
During the year 1903, six hotels and seven  
emigration houses (for men only) were licensed.  
At the end of the year there were 50 hotels and  
16 emigration houses holding licences.

CERTIFICATES OF IDENTITY TO CHINESE.  
The revenue derived from this source was  
\$3,925 compared with \$2,275 in 1902. The  
number of certificates issued during the year  
was:—

To the United States	19
To the Hawaiian Islands	0
To the Philippines	119

The number of certificates issued for the  
Philippines in 1902 was 43.

## POPULATION.

The following is an estimate of the popula-  
tion of the Colony, exclusive of the New Terri-  
tory, on the 30th June, 1903:—

British and Foreign Community	18,581
Chinese	397,509
Total	416,090

The population of the New Territory, accord-  
ing to the census taken in 1901, was 102,254.

## MARRIAGES.

The number of marriages solemnised during  
the year was 146, as compared with 129 in 1902.

## BIRTHS.

The births registered during the year were  
as follows:—

	Males.	Females.	Total.
Chinese	521	228	749
Non-Chinese	150	135	285
Total	671	363	1,034

This is equal to a general birth-rate of 3.17 per  
1,000, as compared with 3.8 in 1902.

The birth-rate among the non-Chinese com-  
munity alone was 18.2 per 1,000 as compared  
with 12.6 per 1,000 in 1902. The nationalities  
of the non-Chinese parents were as follows:—  
British 118, Portuguese 75, Indian 38, Malay  
13, German 11, French 5, Spanish 3, Austrian,  
Japanese, and Persian 2 each, and five other  
nationalities 1 each.

The number of the Chinese births registered  
does not give an accurate record of the total  
number of births of Chinese that have occurred  
in the Colony, for many of the infants that die  
during the first month or so of life remain  
unregistered, although their deaths must be  
registered to obtain the necessary burial orders.  
It has been customary, therefore, to add to the

registered births the number of infants of one  
month old and under that die in the various  
convents, or are found by the police in the  
streets or in the harbour. The number during  
1903 was 250 males and 276 females, making a  
total of 526, and the addition of these figures to  
the registered Chinese births gives a total of  
1,279 as compared with 1,539 during the  
previous year. The corrected birth-rate is,  
therefore, 4.7 per 1,000, while among the Chi-  
nese alone the rate becomes 4.2 per 1,000.

## DEATHS.

The number of deaths in the British and  
Foreign Community was 309 as compared with  
352 in 1902. The number of deaths among the  
Chinese was 5,875 as compared with 6,431 in  
1902. Four Europeans and 1,251 Chinese and  
other Asiatics died from plague.

The number of deaths in hospital amount to  
1,486, or 24 per cent. of the total number of  
deaths registered during the year.

## PERMITS.

The nature and number of permits issued  
during the year were as follows:—

To fire crackers	512
To hold processions	28
To perform theatricals	30
To hold religious ceremonies	40
Total	610

## DISTRICT WATCHMEN.

Convictions were obtained before the police  
magistrate during the year through the in-  
strumentality of district watchmen. The con-  
tributions to the fund for the year were  
\$22,195.29 as compared with \$17,091.09 in 1902,  
being an increase of \$5,104.20. This is due  
chiefly to the increased rate at which contribu-  
tions are paid. The increase came into force in  
July, 1902. The expenditure for the year was  
\$17,549.37. Included in this sum are \$1,000,  
a refund of a Government loan, \$1,372.39 for  
uniform and equipment, \$835.83 for loss on ex-  
change. The balance to the credit of the fund  
on the 31st December was \$12,415.05.

## CHINESE REGISTRATION GROUND.

The total expenditure for the year was  
\$508.27. The revenue obtained from the lease  
of shops, &c., was \$1,535.82 compared with  
\$1,257.02 in 1902. The balance to the credit of  
the fund is \$1,500.75.

## TUNG WA HOSPITAL.

The new wing of the hospital in Tai Ping-shan  
was opened on the 29th March. The Infectious  
Disease Hospital at Kennedy Town was opened  
on the 6th June, but a laundry and some other  
out-buildings are not completed owing to  
difficulties with the contractor. The financial  
position of the hospital is much more satisfactory  
than it was two years ago. An influential  
Committee was appointed in 1902 to inquire  
into and report on the finances of the hospital,  
and with its support it has been found possible to  
considerably increase the amount of subscrip-  
tions and the revenue from the hospital's  
property. Hitherto the only annual subscribers  
to the hospital have been the various guilds,  
but on the recommendation of the Finance  
Committee a new departure was made and  
individual subscriptions invited. In answer to  
the appeal 54 gentlemen have promised subscrip-  
tions of a hundred dollars a year and 10 of fifty.  
A welcome addition to the revenue of the hos-  
pital has been made by the Government grant  
of \$6,000 a year.

The number of patients under treatment at  
the Tung Wa Hospital during the year (Mr.  
Brewin states under another heading) was 2,457  
as compared with 2,730 in 1902. Of these,  
1,540 were discharged and 880 died. The  
percentage of deaths compared with  
admissions during the year was 36.2. In  
1902 the percentage was 45.34, and in 1901  
24.40. The number of out-patients during the  
year was:—Males, 49,376; Females, 23,197; Total,  
72,573.

## ROWLAND'S MACASSAR OIL FOR THE HAIR

Preserves, Beautifies, Nourishes It.  
Nothing equals it. 410 years proves this  
fact. Golden Colour for Fair Hair.

NOTICES TO CONSIGNEES

OCEAN STEAMSHIP COMPANY,  
LIMITED,

AND  
CHINA MUTUAL STEAM NAVI-  
GATION COMPANY, LIMITED.

CONSIGNEES per Company's Steamer

"CALCHAS."

are hereby notified that the Cargo is being  
discharged into Craft, and/or landed at the  
Godowns of the Hongkong and Kowloon  
Wharf and Godown Co., Ltd., where in both  
cases it will be at Consignees' risk. The Cargo  
will be ready for delivery from Craft or Godown  
on and after the 18th inst.

Optional cargo will be landed, unless notice  
has been given prior to steamer's arrival.

All broken, chafed, and damaged Goods are to  
be left in the Godowns, where they will be  
examined at 11 A.M., on the 23rd inst.

No Claims will be admitted after the Goods have  
been left the steamer's Godown, and all Goods  
remaining undelivered after the 23rd inst., will  
be subject to rent.

All Claims against the Steamer must be  
presented to the undersigned on or before the  
26th inst., or they will not be recognised.

No Fire Insurance has been effected.

BUTTERFIELD & SWIRE,  
Agents.

Hongkong, 16th May, 1904.

[10-11]

NOTICE TO CONSIGNEES.

THE P. & O. S. N. Co.'s Steamer

"COROMANDEL."

FROM BOMBAY, COLOMBO AND  
STRAITS.

Consignees of Cargo by the above-named  
vessel are hereby informed that their Goods are  
being landed and placed at their risk in the  
Hongkong and Kowloon Wharf and Godown  
Company's Godowns at Kowloon, where each  
consignment will be sorted out mark by mark,  
and delivery can be obtained as soon as the  
Goods are landed.

This Vessel brings on Cargo—  
From London, &c., ex s.s. Britannia  
and Mariner.

From Australia, ex s.s. China.

From Calcutta, ex s.s. Sumatra.

From Persian Gulf, ex s.s. B. I. S. N.

and B. & P. S. N. Co.'s steamers.

Cochin China ex s.s. Futala.

Optional Goods will be landed here unless  
instructions are given to the contrary before  
4 P.M., TO-DAY, the 19th inst.

Goods not cleared by the 26th inst., at 4 P.M.,  
will be subject to rent.

No Fire Insurance will be effected by me in  
any case whatever.

Damaged packages must be left in the  
Godowns for examination by the Consignees and  
the Company's representative at an appointed  
hour. All Claims must be presented within  
ten days of the steamer's arrival here, after  
which date they cannot be recognised. No  
Claims will be admitted after the Goods have  
left the Godowns.

E. A. HEWETT,  
Superintendent.

Hongkong, 19th May, 1904.

and from Havre ex s.s. Ville de Lorient, in connection with above  
Steamer, are hereby informed that their Goods,  
with the exception of Opium, Treasure and  
Valuables, are being landed and stored at their  
risks in the Godowns of the Hongkong and  
Kowloon Wharf and Godown Co., Ltd., at  
Kowloon, whence delivery may be obtained  
immediately after landing.

Optional Cargo will be forwarded on unless  
intimation is received from the Consignees  
before Noon, TO-DAY, 16th inst., requesting  
it to be landed here.

Bills of Lading will be countersigned by the  
Undersigned. Goods remaining undelivered after  
Monday, the 23rd May, at Noon, will be  
subject to rent and landing charges.

All claims must be sent in to me on or before  
the 23rd May, or they will not be recognised.

All damaged packages will be examined on  
Monday, the 23rd May, at 3 P.M.

No Fire Insurance has been effected.

G. DE CHAMPEAUX,  
Agent.

Hongkong, 16th May, 1904.
